

M'CUMBER TALKS IN SUPPORT OF LEAGUE COVENANT

North Dakota Senator Replies to G. O. P. Arguments

(By The Associated Press.)
WASHINGTON, June 18.—The league of nations was supported in the senate today by Senator M'Cumber of North Dakota, a Republican member of the foreign relations committee, who argued in a three hour speech that the league covenant offered a just and practicable plan for the preservation of world peace.

Replies to Arguments.
The North Dakota senator replied to arguments of Senator Knox of Pennsylvania and other Republican leaders and declared he could not be influenced against the league plan by party considerations.

"Partisan that I am," he asserted, "I hope I shall never be so hidebound or so blinded by party exigency as to oppose a just position taken or a truth declared by a member of any opposition party. I could not cast my vote against any reasonable plan for the preservation of world peace without a conviction that would follow me to the grave that I had committed an unpardonable offense against all future generations."

The North Dakota senator charged there had been a campaign of misrepresentation against the league. He opposed as a proposal calculated "to sound the death knell of any scheme to preserve peace" the resolution of Senator Knox which would declare the senate's opposition to accepting the league of covenant along with the peace terms.

Admits Part is Vague.
"In 20 years of service in the senate," said the North Dakota senator, "I have known but one instrument whose terms have been so willfully misinterpreted and so grossly misrepresented as the covenant of the league of nations. That some of its vague, I know, and some portions objectionable from particular viewpoints. But that it discriminates against us, is unfair in its treatment of our country, or that it imposes on us any obligation or burden that is not equally borne by every other nation I must emphatically deny. It is regrettable that the mighty power of eloquence is used to defame and distort the true meaning of an instrument, the most important that ever appeared to the heart or the soul of man."

"Suppose we now refuse to join with the rest of the world in some scheme to prevent war, what will happen? As surely as the sun shall rise every great nation will proceed to devise means for the wholesale destruction of nations. So desperate will be the next war that all the hate and all the venom created by this struggle will be infinitesimal compared with the next. And against what race will all these weapons of death be used? Against the white race?"

Quotes From Johnson.
Quoting the declaration of Senator Johnson, Republican of California, that America by virtue of her isolation does not need the European powers "as partners," Mr. M'Cumber said isolation had long since broken down, a European quarrel having cost this country in the past five years fifty thousand lives and \$45,000,000,000. There is no moral duty incumbent upon any man in his relation to his fellow man," he continued, "that is not equally incumbent upon a nation in its relation to every other nation. What would you say of the strong vigorous man who would stand on the shore and see a woman struggling in the waves while he, folding his muscular arms, announces 'oh that is no concern of mine. She is not my wife or daughter.'"

"Oh! any opponents of the league of nations, we can make up our minds what to do when the occasion arises. What I want to do is to be right there on the spot when the occasion arises. Had the United States been right on the spot with us and signed by Germany that Germany would not make war on France or any other country without submitting to a league of nations the question of the righteousness of her cause, the world would have been spared this awful conflagration."

Comes As a Compromise.
"Of course not one of us would as it has come to us. But this covenant represents the deliberations of nations. It deals with complex situations. It comes to us as a compromise compact, and to secure the support of this country, special concessions have been made to us. Our Monroe Doctrine is by this instrument given a world sanction."

"The members of the league undertake to preserve the territorial integrity only against external aggression. It has been asserted and reasserted in all the false attacks on this instrument that the United States would be compelled to help Great Britain preserve her domain against her

WILLARD EXPECTS TO WEIGH ABOUT 248
TOLEDO, O., June 18.—Jess Willard announced tonight he expected to weigh between 245 and 248 pounds for his heavyweight championship contest with Jack Dempsey here July 4th, and because of the satisfactory progress he has made in reducing his weight has decided to eliminate road work from his daily training grind.

Light weight prevailed at his Monte Bay camp this afternoon. Willard cut down his boxing to eight rounds and wound up with four more of shadow boxing. Willard faced Jack Hengel for the first six rounds and Jack Hengel stepped the third.

Joe Chip the middleweight boxed the fourth and fifth rounds. When the sixth and Walter Monahan the seventh and eighth. Heinen was dropped in the sixth round with a left hand hook to the chin and was bleeding at the nose when he left the ring.

Dempsey also had a light day. But Manager Kearns announced that the challenger would resume boxing Sunday. Dempsey also has eliminated road work from his daily grind.

RECEIVES TWELVE PER CENT OF COST
WASHINGTON, June 18.—The government has received 12 per cent of the original cost in airplane sales, according to an official report published today. Eleven hundred standard bi-planes were sold for \$200 each, about four per cent of the initial cost, 1,616 JN-4 planes brought \$400 each or 8 per cent and 4,608 Curtiss motors were sold for \$400 each, or 19 per cent. The Curtiss Aeroplane and Motor Company purchased the entire lot.

TERMS BURLESON "DESPOT"
DENVER, COLO., June 18.—Resolutions declaring Postmaster General Burleson a "despot of the worst type" and calling upon President Wilson to remove him from office were adopted last night by the Denver Trades and Labor assembly. The assembly voted requests to members of all labor organizations to have their telephones removed after declaring the Mountain States Telephone and Telegraph company and other wire concerns under federal control unfair to organized labor.

own internal revolutions or the bellows. Nothing could be more false. It is only against external aggression that the league assures its protection.

"The members of the league agree to the reduction of national armament. We have preached the reduction of armaments for years. Now, present to me if you can, a better or a safer plan than that provided in this treaty, or also acknowledge frankly that we never intend to conform our acts to our declarations."

HOUSE PASSES GLACKIN INITIAL BONDING BILL

Action Makes Adjournment of Assembly at Midnight Impossible

(By The Associated Press.)
SPRINGFIELD, Ill., June 18.—Adjournment of the legislature at midnight was made impossible by the passage late today in the lower branch of the Glackin "initial bonding bill" which will enable cities to increase by one third their bonding power. Necessity to enact sixty nine other measures which adjust tax rates, so as not to increase taxes, forced the extension of the session for at least twenty four hours.

The bonding bill which removes a constitutional difficulty to bond increases in Chicago and affects downtown cities equally failed of passage yesterday and its friends made a desperate fight to get it thru the house, the vote today being 81 to 64.

Sends Special Message.
In a final effort, Governor Lowden was communicated with in Chicago and sent a special message in which he urged that the power be granted Chicago.

Speaker David A. Shanahan also left the speaker's stand to defend the measure and to deny that he had been unfriendly to the bill. He declared taxes would not be increased and made a plea in behalf of extensive improvement which he said, Chicago would be able to make with the \$27,000,000 additional bonds available under the measure.

Representative Lee O'Neill Browne fought the bonding bill vigorously and moved that the motion of Representative Means to reconsider yesterday's unfavorable action be tabled. It was lost 67 to 74 and debate on the bill's passage began at 3 p. m.

Arguments of downstate members who spoke against the bill were chiefly that representatives from districts outside of Cook county would not be able to explain to their constituents why they voted for the Glackin bill.

Has Not Reported.
The conference committee in which is pending the "nine hour bill" affecting working hours of women, following refusal of the senate to concur in house amendments had not made a report tonight. A meeting with Governor Lowden who urged some sort of legislation to shorten hours of female employment in a special message today, is planned for tomorrow morning. Two alternatives are possible according to committee members, one a straight eight hour day, and the other a ten hour day with fifty five hour weeks for mercantile establishments and a nine hour day with a fifty two hour week for mechanical concerns.

Representative Dahlberg's "fifty ward" bill for Chicago was passed by the senate, twenty six to ten tonight.

Both houses were grinding away on bills and expected to spend a good part of the night at it.

Full exoneration of Governor Lowden and Finance Director Omar H. Wright is contained in a revised report of the special legislative committee appointed to investigate charges that the governor and Mr. Wright had attempted to bring about lower tax assessments for the Pullman Company. The report which was signed by the members of the committee late today, omits the vigorous censure of William H. Malone, a member of the board of equalization who made the charges, contained in an original draft.

It does, however, say the conduct of parties who circulated stories involving Governor Lowden and Mr. Wright should be condemned.

Articles based on information said to have been furnished by Moline and appearing in the Chicago Daily Journal were characterized as "without foundation in fact."

The management of the newspaper was said to have acted in good faith in printing the stories. Neither Governor Lowden or Mr. Wright used their influence, either directly or indirectly, to influence the equalization board and neither of them threatened that the board would be abolished if Pullman Company tax assessments were raised.

NORTCLIFFE UNDERGOES OPERATION
London, June 18.—Viscount Northcliffe newspaper owner and former head of the British mission to the United States underwent operation today. A bulletin issued by his physicians says the viscount's condition is satisfactory.

MATSONIA DOCKS.
Newport News, Va., June 18.—The transport Matsonia arrived today with 3,296 returning troops including the 322nd infantry and company B, 310th supply train. The ship brought 29 French girls, wives of American soldiers.

Labor Calls Bomb Menace On Wilson To Remove Burleson

(By The Associated Press.)
ATLANTIC CITY, N. J., June 18.—Radical and conservative delegates attending the reconstruction convention of the American Federation of Labor clashed again today. The contest, which arose over a resolution proposing inauguration of a policy of initiative and referendum within the ranks of organized labor was marked by a display of bitter rivalry, resulting in the radical element being crushingly defeated.

Only Thirty-Five in Favor.
A vote on whether there should be a roll call on the resolution disclosed there were only thirty five delegates out of about 5,000 favoring the measure. This was interpreted as representing even more than the maximum ratio of radicals within organized labor.

The clash developed after the delegates unanimously adopted a resolution assailing Postmaster General Burleson for his "labor policy" and calling on President Wilson to remove him. The postmaster general was severely criticized by delegates and termed "an administrative misfit." No delegate defended Mr. Burleson.

When initiative and referendum resolution was reported, James Duncan of Seattle declared the measure was for the benefit of the "rank and file of workers." He accused the resolutions committee which recommended non-concurrence in the measure of being unprogressive and holding the belief the rank and file was not intelligent enough to consider important questions.

"You preach about democracy and yet you won't have it in organized labor," hotly declared the delegate.

Delegate Dautenhahn of Detroit, accused the committee and organized labor in general of desiring to "choke any new ideas."

Shay Defends Action.
Charles C. Shay of New York, delegate to the theatrical stage workers, denied that organized labor was engaged in throttling new ideas, adding:

"We are however, engaged in killing so-called new ideas, by signing the American labor organization as it is today. We are tired," he declared, "of having you people come in here and scream about what we should do to run the government. Those who get up here to tell us such things would do far better if they would take out citizenship papers and then they could vote."

J. P. Frey, chairman of the resolutions committee answered all radical arguments by pointing out that the rank and file, thru officers and meetings had complete opportunity to express themselves on any question and that if the initiative and referendum was practiced in organized labor it simply would furnish a means to enable certain people to call general strikes and provide an avenue thru which interests unrelated to labor might get labor's support for their own pet schemes to the eventual detriment and even disintegration of organized labor itself.

Some Resolutions Adopted.
Among many resolutions adopted today were these:

"Favoring the initiative and referendum on constitutional amendments; supporting all legislation suggested by President Wilson in his recent message to congress; favoring legislation permitting leaves to labor officers in the government employ to attend to labor business without injury to their standing; favoring a living wage for government employees; advocating an eight hour day and \$5 a day minimum wage for immigration and customs inspectors on the Canadian border and advocating discontinuance by the government of civil employment for men and women in the military service upon the signing of the peace treaty."

A proposal to favor passage by congress of a law to govern prices of all goods on a competitive basis was rejected. A federal budget system as a means of cutting down needless and extravagant expenditures by the government was favored.

Bomb Menace Still Hangs Over Country

(By The Associated Press.)
WASHINGTON, June 18.—The menace of bomb outrages still hangs over the country, in the belief of officials of the department of justice. William J. Flynn, chief of the department's bureau of investigation, said today he believed there were "more bombs to come" but said it was impossible to say when the next attempt to create a reign of terror by explosions might be made.

Supplementing Mr. Flynn's statement, the department tonight made public testimony of Attorney General Palmer before the house appropriations committee asking for a special fund of \$500,000 to carry on the hunt for radicals. The attorney general told the committee that government officials had been advised of a day set for another attempt by radicals "to destroy the government at one swoop."

"We have received so many notices and got so much information," Mr. Palmer told the committee at his recent appearance, "that it has almost come to be accepted as a fact that a certain day in the future which we have been advised there will be another serious and probably much larger effort of the same character which the wild fellows of this movement describe as a revolution."

Mr. Flynn said he knew of no plot planned for independence day but emphasized that every precaution was being taken by police thruout the United States. He expressed the belief that eventually those involved in the recent outrages would be brought to justice.

"We know the source from which the bomb operators have come," Mr. Flynn said. "The agitation is purely domestic and has no foreign connection although there may be some foreigners active in it."

"It will take some time to clear up the cases but we are making progress."

TO PROBE CHARGES AGAINST PALMER
WASHINGTON, June 18.—Investigation of charges against the administration of Attorney General Palmer as alien property custodian was decided upon late today by a senate judiciary subcommittee headed by Senator Dillingham, Republican of Vermont. The hearings, which Mr. Palmer today requested be public will begin next Friday.

The inquiry resulting from objections of Senator Frelinghuysen, Republican of New Jersey to confirmation by the senate of Mr. Palmer's nomination is expected to be brief. Mr. Palmer, who requested to be called in defense of his administration will be one of the first witnesses.

Information regarding the former alien property custodian's management of enemy alien fire insurance and other matters recently was laid before the judiciary committee by Mr. Frelinghuysen.

Former Attorney General Meritt E. Lewis of New York, also furnished information.

The subcommittee which will conduct the inquiry in addition to Chairman Dillingham, consists of Senator Fall, New Mexico and Sterling, South Dakota, Republicans and Sherman, North Carolina, and Walsh, Montana, Democrats.

PRISONERS ESCAPE AND ATTACK CASTLE
WEIMAR, June 18.—By the Associated Press.—Fifty Spartacist and communist prisoners escaped from the Weimar castle shortly after midnight this morning, attacked the castle where the members of the movement live. They were repulsed by a lone guard who stood by a machine gun until he had driven off the mob.

Give Semi-Official Account.
Berlin, June 18.—A semi-official statement today gives the following account of last night's disorders at Weimar:

"At Weimar last night sixty military prisoners and a few criminals escaped from prison and disrupted the military guard. A fusillade ensued in the neighborhood of the castle. Some of the prisoners were recaptured while others surrendered this morning."

ACQUIT STEVENS
Chicago, June 18.—Walter Stevens of Chicago was acquitted at Geneva, Ill., last night of the murder of Alfred Olin an Aurora policeman. When word of the verdict reached here today, it was learned that the jury accepted Stevens' alibi that he was in bed suffering from wounds inflicted by a Chicago policeman when Olin was killed on Oct. 21, 1918.

FRENCH SAILORS TRY TO RELEASE PRISONERS
Brest, June 18.—Two hundred French sailors, carrying a red flag attempted to enter the naval jail here yesterday to secure imprisoned sailors. The attempt failed. There were no casualties.

DETAIN U. S. STEAMERS
Danzig, Eng., June 18.—Eight American steamers laden with provisions for Germany are detained in the Downs pending the signing of the peace treaty.

ATTEMPT TO SAVE BEER AND WINE FAILS

Senate Tables Motion To Exclude Them From Prohibition

(By The Associated Press.)
WASHINGTON, June 18.—A motion by Senator Phelan, Democrat, California to add a rider to the agricultural appropriation bill proposing exemption of beer and wine from war time prohibition was tabled by the senate late today 55 to 11.

Senator Phelan proposed suspension of senate rules barring his rider, which requires a two-thirds majority. He spoke briefly in support of limiting the war time prohibition act to distilled spirits only but no discussion came from prohibition advocates.

When Senator Phelan concluded Senator Gronna, Republican of North Dakota in charge of the agricultural appropriation bill moved to table Senator Phelan's motion, cutting off further debate.

On the Phelan motion senators voting in its support were:

Republicans—Caldier, Edge, France, Knox, La Follette and Wadsworth. Total six.

Democrats—King, Phelan, Reed, Thomas, and Williams. Total five.

Senator McLean, Republican of Connecticut, also voted against tabling the motion, but later withdrew his vote because of a fair.

The sentiment of the senate thus expressed in the first test vote of this congress was taken generally to sound the death knell for measures designed to permit the use of beer and wines under the war time legislation.

A new tack was taken in the house, however, by advocates of suspension of the war-time prohibition laws provisions insofar as they affect beer and wines. The house judiciary committee received and agreed to vote next Saturday on an amendment by Representative Guard, Democrat, Ohio, to prohibition enforcement legislation which would authorize the president to suspend the war-time ban on beer and wines. The committee generally was predicted to recommend enforcement of prohibition by the internal revenue commissioner and not by a special prohibition commissioner.

PRONOUNCE DOOM OF DAYLIGHT SAVING
WASHINGTON, June 18.—Doom of daylight saving, inaugurated as a war measure was pronounced today by congress both senate and house adopting by overwhelming votes, measures to terminate operation of the law when the period of summer time ends next October 26.

The house, following three hours' debate, by a vote of 232 to 132 passed a bill to repeal the law on the last Sunday in next October but rejected an amendment to make the repeal effective at once.

The senate by a vote of 56 to 6 after brief discussion added a rider to the agricultural appropriation bill providing for repeal of daylight measure on the same date fixed by the house bill.

The senate measure now goes to conference with the agricultural bill and the house bill is to be sent to the senate. It is considered likely that senate amendment will be finally substituted for the house measure. Action of congress therefore means continuation of the present clock time this summer and early fall with return to sun time October 26, ending two years operation of the daylight saving plan.

Members of both senate and house, in advocating repeal of the law enacted March 19, 1918, said they were guided largely by wishes of farmers and laboring men who opposed the advanced working hours during the spring and summer season.

PARTIALLY RESUME CABLE COMMUNICATION
Washington, June 18.—Cable communication with Germany has been partially resumed. The war trade board announced today all cable companies and censors had received instructions to accept and transmit cablegrams relating to the supply of foodstuffs to Germany under the Brussels agreement when the messages were otherwise unobjectionable.

TO MEET IN NEW YORK
Washington, June 18.—The federal electric railways commission recently appointed to consider measures for the financial relief of electric railways will hold its first hearing in New York Thursday, it was announced here. The commission will hear Ex-President Taft and a number of electric railway experts.

TO DISCONTINUE POSTAL CENSORSHIP
Washington, June 18.—Official announcement was made today by the censorship board that the United States postal censorship would be discontinued at the close of business next Saturday.

Urge Increase In Air Section Of Navy Bill

Senate Debated by Cabinet—Newspapers Take Dark View

(By The Associated Press.)
WASHINGTON, June 18.—Increase of \$20,000,000 in the \$15,000,000 aviation appropriation carried in the 1920 navy appropriation bill as passed by the house was urged today by the senate naval committee today by Captain T. T. Craven, chief of naval aviation, who declared that unless it was granted the United States would fall far behind other nations in the race for aircraft development.

Rear Admiral J. S. McKean, acting chief of operations, and Captain R. H. Leigh, acting chief of navigation, also asked the committee to authorize a larger naval force than the house plan of 241,000 men until October 1, 1919,000 until January and 171,000 thereafter. Both recommended that 250,000 men should be allowed until October 1, and an average of 200,000 for the balance of the year.

Urging an increased appropriation for naval aviation, Captain Craven declared that England intended to spend \$200,000,000 next year for the development of aviation and France \$200,000,000.

Plans for the construction of rigid dirigibles would have to be abandoned if the senate did not increase the appropriation. Captain Craven said, and experiment at work on heavier-than-air craft would have to be greatly curtailed.

The program for dirigible construction the captain said included the erection of two hangars at a cost of \$2,000,000 each, the purchase of one of the latest models of British dirigibles for \$2,500,000 and the construction of two more in this country at a cost of \$2,000,000 each.

Asked by Chairman Page why Great Britain contemplated spending such a large sum as \$200,000,000 on aviation, Captain Craven said it was England's avowed intention to "dominate the air as she has the sea."

He added that the British already had made rapid strides in that direction and that if the United States did not want to be hopelessly outdistanced it should make liberal appropriations immediately.

HAS THIRTEEN SONS KILLED IN BATTLE
PARIS, June 18.—Correspondence of the Associated Press.—Thirteen sons killed on a field of battle, three discharged with grave injuries, one wounded four different times, the father and one daughter summarily shot by the Germans, for going to Lille to celebrate the centenary anniversary of a relative and another daughter killed by a German shell at Dunkirk, is the record of the family of M. Vanhee, a French farmer of Remingne, near Ypres.

M. Vanhee had thirty-six children, twenty-two sons and fourteen daughters, all of whom were living when the war broke out. One of his sons was valet to Pope Pius X; he returned to France to fight and was wounded in each of four engagements. One of the sons lost both legs, another returned from the front blind, and deaf, and another underwent the trepanning operation.

PLAN NEW DISTRICT A. A. U. ASSOCIATIONS
NEW YORK, June 18.—Plans for the formation of two new district associations of the Amateur Athletic Union with headquarters at Buffalo and Indianapolis were announced here tonight by Frederick W. Rubien, Secretary-Treasurer of the organization. The new associations he said would be formed from territory taken from the unwieldy Metropolitan and Central Associations, the great size of which has hampered athletes living at points far removed from centers where meetings are held. Others of the present district associations will be split in the near future, Mr. Rubien added.

The new association taken from the Metropolitan association territory will be known as the Western New York association.

The association with headquarters in Indianapolis will be known as the Indiana association and will include all of the state of Indiana.

CONFIRM DEATH SENTENCE OF DEAR
SPRINGFIELD, Ill., June 18.—The supreme court today ordered that the death sentence in the case of Earl Dear should be carried out on June 27. The mandate from the United States supreme court which dismissed the writ of error, was filed with the court late today.

A hearing in the case will be held by the division of pardons and paroles tomorrow and it is impossible that action in the case will be taken by Governor Lowden.

Dear is under sentence of death for the murder of Rudolph Rolfe chauffeur for Major Philip Schuyler Dear. The crime was committed in Chicago.

Albert Guberson of Springfield made the city a visit yesterday and Roy Craig in particular.

HUNS REACH NO DECISION ON PEACE PACT

Terms Debated by Cabinet—Newspapers Take Dark View

(By The Associated Press.)
BASIL, June 18.—(By The Associated Press.)—The German peace delegation at this morning's meeting at Weimar advised the cabinet to reject the peace treaty, according to a dispatch sent from Weimar by the correspondent of the Frankfurt Zeitung. The correspondent added that the experts with the delegation also were of the opinion that the treaty should be rejected.

WEIMAR, June 18.—(By The Associated Press.)—The cabinet today debated the peace terms of the allied and associated powers. It was officially announced that no decision had been reached. The cabinet probably is awaiting the result of a conference of the South German plenipotentiaries with the plenipotentiaries of the German peace delegation at Versailles.

The full original French text of the entente answer, including the covering page was finished this morning by the printers and will be distributed this afternoon. The government today received President Clemenceau's approval for the signing of numbers of a German peace delegation at Versailles.

Committee Studies Document.
(By The Associated Press.)
Noting official has yet received word as to what action the German government will take regarding the peace pact, the cabinet today studied by international assembly peace commission. Official reports at the time are great dissatisfaction on the part of the German cabinet members and high German officials over what are considered the extremely hard terms. It is said a majority of the cabinet members are opposed to signing the treaty, but are fearful of a reign of Bolshevism and consequent chaos in the country should they decline.

German newspapers take a dark view of the outcome whether Germany signs or not. Those newspapers which opposed signing let their pessimism run to the extent of expecting a resumption of hostilities by the allies Monday if the armistice is permitted automatically to end. While there is nowhere any indication that in circumstances compel the allied troops to advance further into Germany there necessarily will be fighting, the American, British and French troops will be prepared for any contingency. If a further invasion becomes necessary the troops will march into Germany in battle formation.

With President Wilson in Belgium and David Lloyd-George, British premier visiting the battlefields around Verdun the council of foreign ministers and the supreme economic council were the only sections of the peace conference in Paris at work Wednesday. The Polish-Ukrainian situation and details as to the occupation of Danzig by the Poles were discussed by the foreign ministers, while the economic council's deliberations concerned resumption of trade relations with Germany and financing of food supplies for Austria.

An attempt by French sailors who carried a red flag, to release from the prison at Brest, a number is reported serious.

SUPREME COURT GRANTS NEW TRIAL
SPRINGFIELD, June 18.—The supreme court this afternoon granted a new trial to Edward A. Strauss, former bank president of Peoria, convicted of slaying Bernie M. Meade, his cashier, and sentenced to serve a twenty-year term in the penitentiary. The judgment of the trial court was reversed and the case remanded on the ground that the conduct of the jury was not proper. "We cannot escape conviction," the opinion said, "that the jury and officers in charge failed to appreciate the importance and solemnity of their duties and functions." Strauss has been out on bail pending the decision of the supreme court.

FARMING TROUBLES AND LAND VALUES

Army worms are working in various parts of the county and have done considerable damage to wheat. There are some fields in which the prospect for oats is not excellent and in many corn fields the plowing work is greatly delayed by wet weather. But these and other "lugubrious blue" facts do not seem to have any bad effect on Morgan county land and the market for the best land is going steadily upward. The reason is that farmers know from experience that each year brings some crop troubles and also each year shows that the land here is dependable. If one crop on the

farm is light, that in the adjoining field is heavy enough to make up for the loss.

An auto trip thru some counties not far distant from Morgan is sufficient to give one a new appreciation of the desirability of Morgan county land.

STREET RAILWAY TROUBLES

When the 6 cent street railway car fare went into force in Jacksonville there were some residents who demurred and felt an injustice was being done the public. Now the records made by the American electric railway association show that there have been increases granted in 277 cities in the U. S. and Canada. In most cities where increases have not been given the operating lines are in financial trouble and it will be just a question of time until increases are given or they will go out of business.

THE UNSETTLED QUESTION.

McCatchen comments succinctly on the Mexican question by showing Uncle Sam on guard along the border in 1917, just about ready to go across the boundary line and take some part in the conflict. Another cartoon showed the colossal figure still on guard with unchanging mien and still reviewing the unsettled question.

Evidently the cartoonist thinks the Mexican problem which loomed large a few years ago is still pressing for solution, and certainly with no change for the better. Recent events have given no

special indication that the government chose wisely in preferring Carranza to Villa.

Henry Ford has just announced a reduction in the price of his tractors. If any of the jurors who are now hearing the evidence in the celebrated Ford-Tribune libel suit are farmers the Tribune will be likely to charge the complainant in the present suit with an effort to influence them.

JUST A FEW DAYS' SUPPLY.

The war department is receiving bids for \$65,000,000 worth of surplus meat prepared for war time army uses. Dumping such a large quantity of meat on the market at one time in the minds of many consumers means a slump in prices. At least that is what the consumers have been hoping would happen. But when it is remembered that all this great amount of meat is not more than sufficient to feed the people of the U. S. for a six day period, there is not much likelihood of the sale causing a panic in the packing industry.

A BUSINESS ASSEMBLY.

The Illinois legislature will adjourn soon. Some measures that had merit in them will not be passed, but as a while the assembly session goes into history as one of the most active and business-like in the annals of the state. Important legislative work was taken along many lines and the members of the assembly have in the great majority evidenced a desire to perform work while public service. In fact, the records of the legislature is quite in accord with the spirit of the present state administration.

THE ALL COUNTY CELEBRATION.

The all county feature for the Fourth of July celebration is one with a strong appeal. The American Red Cross society made the suggestion that the county be used everywhere as the unit for celebrating the return of soldiers. Thus Morgan county in its Fourth of July events will be taking part in a great national program of thanksgiving that the war is over and that the soldiers have come home. It is very interesting to note too that practically all of the parents of soldiers who have not yet returned are entering just as heartily into the plans for July 4 as if their sons were actually here. They know that "the boys are coming home and they realize too that if the celebration were postponed until every last one of the country's quota had actually returned, that the celebration probably could not occur until many months have passed. The fact is in a great many communities the celebrations have already been held.

Rippling Rhymes By Walt Mason

MONTH OF ROSES
Oh, joyous month of roses, I wish you'd last a year! Your scents enchant our noses, your sounds impress the ear. I have ten million roses they never stale or cloy, and every one discloses the fact that June's a joy. I love the humble radish, appreciate the prune, and cabbage makes a glad dish—but oh, the rose of June! We do not boil or bake it, or slice it into slaw, but to our noses take it, at every breath we draw. It has a rich aroma that simply can't be beat; from Taunton to Takoma there's nothing smells so sweet. And often 'twill remind us of scenes of long ago, of gardens left behind us, where roses used to grow; of old accustomed places, and vines above the door; of old familiar faces that smile on us no more. A rose's scent will carry us back to childhood's hours, when we were wont to tarry among the homely flowers; when life was all Elysian, and we had buoyant tread, and knew no backward vision, but always looked ahead. And so I sit here dreaming—and dreams are quite a boon—the sunlight on me streaming among the scents of June; and as I view the roses it seems to me a sin that I've not forty noses, to take the scent all in.

PROMINENT YOUNG BUSINESS MAN IN-DORSE SYSTEM
Mr. J. E. Craig, 3949 Magnolia Ave., St. Louis, Mo., writes, March 3rd, 1919:

"Never again will I suffer as I did before taking SYSTM. I was continually bothered with sour stomach, headache and rheumatism and altho a pharmacist I could not obtain relief until after I had taken several doses of SYSTM. Before finishing the first bottle I had hardly an ache or pain."

SYSTM was originally devised by a successful physician in his practice. It produced such remarkable results in the treatment of rheumatism, gout, constipation, sick headache and biliousness that it was necessary to produce the preparation in larger quantities.

If you are not satisfied with the relief obtained bring back the empty bottle and your money will be cheerfully refunded.

FRANCIS PULASKY DROWNS WEDNESDAY

Young Man Meets Death in Lake At Davis Switch—Was With Picnic Party from Parochial Schools—Coroner Rose Held Inquest.

Francis Pulasky aged 12 years, son of Mr. and Mrs. Joseph Pulasky of 714 North East street was drowned in the lake at Davis Switch two miles south of the city, about 11 o'clock Wednesday morning.

The lad had gone with a picnic party from the parochial schools and several boys went in swimming. Pulasky was just learning to swim and got beyond his depth and went under the water. None of the boys who were in the water were able to give him assistance and he went down for the third time. Robert Walsh who was on the opposite side of the pond hurried to the spot and dived and brought up the boy.

A telephone call was sent to the city from the residence of John Cain and Dr. Bove responded. The usual methods of resuscitation were applied before his arrival but to no avail and Dr. Bove was unable to give any assistance tho he worked for nearly two hours over the body.

Coroner Rose was notified and went to the scene and the body was removed to the undertaking parlors of J. H. O'Donnell. Coroner Rose empaneled the following jury and held an inquest Wednesday afternoon. Muriel Cain foreman, M. J. Crowe, Fred J. Gibson, W. W. Gillespie, John H. O'Donnell and Walter H. De Shara, clerk.

The jury heard the testimony of Robert Walsh who recovered the body. Dr. Edward Bove, Francis William Quinlan and Charles Casey. Their testimony was that Pulasky got beyond his depth and went down. After hearing the evidence the jury returned a verdict that death resulted from accidental drowning and that no blame could be attached to anyone.

After the sad tragedy the picnic plans were abandoned and the party returned to the city in deep sorrow at the untimely end of one of their fellow students.

Robert Walsh who recovered the body saved a boy from drowning a short time ago and probably had been near he would have saved Pulasky's life.

John Cain said yesterday that the pond is a dangerous place for anyone unable to swim as it is full of deep holes. Mr. Cain felt badly over the incident as he has always been very liberal in letting picnic gatherings be held on his farm.

No funeral arrangements have yet been made.

FINE ADDRESS HEARD AT COMMUNITY TENT

Evangelist Talked to Large Audience About Personal Responsibility—Prayer Meetings Today.

At the tent meeting last night the Rev. J. O. Kirkpatrick made the opening prayer and Mr. and Mrs. Shimer sang very impressively, a duet entitled, "The Scarlet Thread."

The evangelist took his text from Gen. 3:9, "Adam, Where art thou?" and delivered a masterful and fearless sermon on the subject of personal responsibility that moved the audience alternately to laughter and tears. He declared that our first parents, when they sinned, did what all cowards do, ran and hid, and then each tried to evade responsibility by shifting the blame. "Many people today," he said, "charge their sins to the influence of heredity. The objection to a family tree is that those who maintain one usually keep the rotten apples on the back side of the tree. There are always some nobodies among the nobodies and usually a few nobodies among the nobodies."

The speaker then proceeded to question the audience about their personal influence in the home, their business and the church to which they belong and pair his respects to the amusements of the day, asserting that gambling should be prohibited by law, whether practiced in a dive or in the parlor of a church member.

He related very tenderly the story of his own daughter's death and exhorted parents to stand by the vows they made at the bedside of their dying friends.

An appeal from the platform to spend five minutes daily in prayer by Dr. E. L. Fletcher.

Cottage prayer meetings will be held from 9:30 to 10:00 a. m. today, with Mrs. John Kastrop, 810 South West, Mrs. Solomon Swanson 1425 South West and J. A. Walters 1127 South East street.

The evangelist announced for his subject tonight, "Weighed in the Balances and Found Wanting."

New Record Pace for Berkshire Hog
According to advice from Col. L. L. Seely, who has completed a circuit of Berkshire hok sales in the New England states as auctioneer, Morgan Farm of Sangerville, Maine, now has the record price on the sale of a Berkshire hog, taking the distinction from Gregory Farm of White Hall. Col. Seely states that he sold one hundred head in two and one-half hours, and that one of them sold for \$6,000. The previous record was made at Gregory Farm in the sale of a Berkshire Masterpiece was sold to a firm at Kirksville, Mo., and this has remained the world's highest price for a hog until Col. Seely wrested the honor from Gregory Farm. Col. Seely is now en route home with added glory to his reputation as a national auctioneer. He is the son of Anthony Seely of White Hall, and is now only thirty years of age.

Fraternity Day in White Hall
In addition to the regular Tuesday was fraternity day in White Hall. The local Porter lodge, Knights of Pythias, celebrated the lifting of the debt on their magnificent lodge building by entertaining Grand Chancellor S. L. VonFossen, of Beardstown, at a banquet and the advancement to full membership of a class of four candidates. Other grand officers present were John J. Reeve of Jacksonville, past grand chancellor, and Andrew J. O'Donnell of Chicago, grand prelate. There were visitors from all surrounding towns.

The Odd Fellows observed memorial exercises in their hall. It was the occasion of a regular meeting of the Rebekahs, at which officers were elected, and then the Odd Fellows joined in the memorials. Particular stress was laid on the old school of Odd Fellows, who were named as David Culbertson, Capt. E. J. Pearce, Charles Quigley, S. B. Silkwood, Sr., M. Brantzel and Isaac Lowenstein, names most familiar to the present generation of Odd Fellows and Rebekahs.

White Hall Notes
J. O. Watt suffered a broken leg Monday by falling from a cherry tree.

Mrs. N. J. Henderson left this week for Lewistown, Montana, for an indeterminate stay with her son, Senator Eugene Lane, who served in the late war with the title of major.

A number of smallpox cards were placed on houses in the northeast part of town last week, but no measures were taken to isolate the few patients, and on Tuesday the smallpox bill of fare was changed to measles.

The stoneware interests here have adopted an unique method of business propaganda by having printed an immense quantity of gummed labels reading in red ink, "Pack Eggs in Stoneware for Winter Use." These labels are being placed with local business concerns for use on the front of all letters mailed, and is proving to be a very effective means of setting forth the value of stoneware in general household use. The labels give an air of civil pride that is also commendable.

L. O. Bates was able to be up town Tuesday for the first time since his attack with paralysis which was not as serious as at first regarded.

Clarence E. Potts is remodeling his residence on North Main street purchased from Dr. H. A. Chapin, whose residence it was until the latter's removal to Jacksonville.

Mrs. Zeno Stocks of Kansas City, has decided to the city a tract at the rear of the Stocks hotel, about 30 by 40 feet, which will straighten out the new boundaries of Whiteside Park. There is a small building on the tract that goes with Mrs. Stock's gift, and this will be sold in connection with the sale of other buildings in clearing the new addition. Now that the proceedings are practically complete, so far as the legal phases are concerned, it is interesting to recall a few of the words of Judge John C. Bowman in his opening remarks before the county court in connection with the condemnation proceedings. Judge Bowman represented the Baillie heirs. It seems that the Baillie heirs who looked after the case in the county court had been led to believe that the site was wanted for some kind of factory, and that they were not aware of having any property in White Hall until receipt of the court notice. On being satisfied as to the true meaning of the proceedings, they were quoted as having said that so far as their individual interests were concerned, they would be glad to

contribute that much to the home town of their ancestry, both being wealthy manufacturers in Peoria. This spirit animated the proceedings, and Judge Bowman remarked that "the spirit that is evidenced on the part of the citizenship of White Hall is without equal in the county if not in this section of the state, and if such a spirit continues, there is no telling what strides of progress our neighboring city on the north will make in the next few years." Judge Bowman did not presume to add that he is a native of White Hall, possibly thinking it would reflect a sort of personal aggrandizement to assume the role to which he belongs, but his attitude pretty much represented the spirit of the "opposition" to the great White Hall benefactors, Mr. and Mrs. Seth N. Griswold. We would not be surprised if the wealthy Baillie heirs at Peoria did not yet take a personal interest in the park in some form of memorial to their mother.

CONSIDER STATE TAX PROBLEMS

CHICAGO, June 17.—State income taxes formed the chief subject of discussion at the first formal sessions of the annual tax association today. The time was largely spent in consideration of Illinois tax problems.

N. T. Abbott, vice-president of the Central Trust company of Illinois advocated a state income tax modeled on the Massachusetts plan levying one rate on unearned incomes and a lower rate on "casual profits derived from dealings in tangible personal property."

Douglas Sutherland secretary of the civic federation of Chicago declared the present legislature's action on tax bills would increase next year's bills from 35 to 40 per cent over those for 1919.

Charles J. Tobin, vice-president of the New York state tax commission estimated that the state's new income tax, which he said allowed the same exemptions as the federal income law, would produce \$50,000,000 in revenue for 1919. He explained a non-resident had to pay income tax on New York property unless a similar tax was imposed in his own state and that the New York also must pay income tax on income tax on income producing property outside the state.

TRY MRS. LYNCH AS ACCESSORY IN KILLING

GREENFIELD, Mo., June 17.—Mrs. Maud Lynch, 55 years old, mother of Jay Lynch, who was hanged by a mob of citizens at Lamar, recently, was placed on trial in the Dade county circuit court here this afternoon charged with being an accessory in the killing of Sheriff John Harlow of Barton county and his son, Walter Harlow, in the Barton county jail at Lamar on March 3.

Both the mother of Lynch and his widow, Mrs. Leola Lynch, 29 years old are charged jointly with being accessories in the murder. The defense elected separate trials.

TRAIN DESPATCHERS ADVOCATE 8-HOURS

CHICAGO, June 17.—Advocates of "eight hour day and a six day week," addressed the sessions of the American Train Dispatchers' Association today. Warren S. Stone, grand president of the Brotherhood of Locomotive Engineers, supported the movement.

"Get what you should have and get it now," said Mr. Stone. "Do not wait until it is given to your grand children, you need it now more than they will."

He also advised the dispatchers to stand for the abolishment of liquor that would rob them of their energies.

SAYS SPECULATORS BLOCK BUSINESS

CHICAGO, June 17.—Louis Wallis, of the United States department of labor declared before the National Association of Veneer and Panel Workers convention today that 1,200,000,000 board feet of timber and other building material was in the hands of lumber speculators. He said a similar condition prevailed as to materials.

"The speculative holding of our immense empire of unused land is blocking business and artificially forcing up prices," he declared.

MAL DISBAR BECKMAN.

Springfield, Ill., June 17.—The supreme court ruled today that Ignatius Beckman of Chicago should show cause by Oct. 1, 1919, why he should not be disbarred from practicing law. Beckman is charged with forgery.

POSTAL ACTION WILL NOT AFFECT STRIKE

CHICAGO, June 18.—After a conference late today union officials stated that the action of the Postal Telegraph company in announcing that striking commercial telegraphers who return to work before June 20 will be reinstated "with continuity of service" will have no bearing on the strike.

"We are fighting for the right of collective bargaining, the same right that the postmaster general extended to electrical workers," said S. J. Konenkamp, president of the telegraphers' union. He added that latest reports showed more workers were idle than at any time since the strike started.

Telegraph company officials asserted that business was not being delayed noticeably in any district. Union leaders said conferences in Atlantic City by American Federation of Labor officers probably would result in placing the entire situation before President Wilson.

Charles P. Ford, secretary of the International Brotherhood of Electrical Workers said the strike of telephone operators and linemen in the Pacific Coast district might be extended to other states included in that district unless demands are met. He attributed the trouble to failure of telephone companies to abide with the postmaster general's order permitting the workers to bargain collectively.

U. S. TRANSPORT CARRIES DR. PESSVA

WASHINGTON, June 18.—A wireless message to the navy department early today announced that the French Cruiser Jeanne D'Arc had been disabled at sea and that the Transport Imperator had taken off Dr. Pessva, president-elect of Brazil, and his party who were enroute to the United States from Lisbon. The message was sent by Admiral Benson who was returning home from France on the Battleship Arkansas with which ship the Imperator communicated.

Later dispatches to the department said the army Transport Mongolia was towing the Jeanne D'Arc to the Azores, and that good progress was being made.

KILL TEN MEXICANS.

Galveston, Texas, June 18.—Ten Mexicans, alleged members of the Industrial Workers of the World, were killed by Mexican federal troops during a riot at Tampico today, according to an unofficial report received here. Many persons were reported wounded.

The riot was said to have been in connection with labor disputes at Tampico and federal troops were compelled to fire to disperse the crowd.

A Motor Truck represents an investment in hauling equipment. The truck that does the work year in and year out at the lowest cost proves to be the best investment. Ask any owner of an International Motor Truck and he will tell you the International cuts the cost of hauling down to the lowest practical point.

International first cost is low because of quantity production. Quality is maintained at a high standard because every important part of the truck is manufactured and each truck assembled in one great factory under centralized supervision. Every lot of material of every kind is subjected to the most rigid tests, and unless it passes those tests it is discarded. No inferior material or workmanship gets into

These things are done because the International Harvester organization is building not alone for the present but for the future. We want every International Motor Truck owner to feel that he has the best truck he can buy and to be able to prove it at any time by any fair test that can be suggested or proposed.

Some day you will buy a motor truck. If you are the kind of a man that is not satisfied with anything but the most economical truck for hauling and delivery work, drop us a line, call up, or come in and see us. The more you know about motor trucks, the quicker we can convince you that the International is a mighty good truck to own. There is a style and size to meet almost every hauling requirement.

Events of the Third Day Are Recorded—Emotional Element in Life One Theme Discussed.

Wednesday morning witnessed a good attendance and all much enjoyed the reading announced by Mrs. P. C. Thompson. Miss El-

len McCurley's playing was excellent.

The morning theme of Prof. Cox' address was "The Element in Life and Literature." Life's interests are manifold. The interest in life is life itself. "Keep your heart with diligence." We have schools to gain a great and harmonious life. If you fail to cultivate your faculties life ceases to be.

Out of the emotions are the issues of life. Consciousness is a monitor always. Love and patriotism are emotions. Public sentiment has been a powerful factor in the great war. The emotional side of a child's life should be carefully developed. Wrong environment for the child is evil.

The teacher has much of the training of the rising generation to do the work well. Music is the finest of all arts; poetry comes next. Literature is expressing in words the meaning of life. The greatest of all books is the Bible. Shakespeare and Browning are seers. How much real thinking do we do each day? How many lives in the realms of imagination? Never without emotion. One's emotions are like a great picture film. The young child lives in the emotion Mother Goose rhymes: "Rock a Bye Baby," will be remembered always by many little ones.

Robert Burns is a delightful writer. How beautiful and touching are many of his poems. You miss much if you fail to know the great authors. All pupils would be familiar with noble passages of the Bible; learn to read without the book.

Prof. Hall spoke on Manuevers in English. The nursery rhymes will always be treasured and the

Roman songs sung by Lindley Williamson of the Illinois Conservatory of Music with Miss Martha Priest accompanying were much enjoyed.

Prof. J. G. Ames of Illinois College eloquently presented the cause of Thrift Stamps.

Prof. Hall continued his discussion of his morning subject.

Prof. Cox spoke on the literature of Democracy. Folk lore is the literature of democracy. Paul said: "Hold fast that which is good." Don't be in a hurry to improve the Book of Proverbs. Popular productions are Cincinella, and many others. Tenyson's Idylls of the King is a grand production. Many other great writers are producers of the literature of democracy. LATEST NEWS FROM THE ARMY WOMEN

The farmers are successfully keeping them out of the corn by plowing a furrow, throwing the dirt both ways, dragging a log along this furrow until a dusty mulch has been formed and then digging post holes in the bottom of this furrow at intervals. The worms come to the furrow, tumble in, crawl along it until they fall into the post holes, where they are killed, either by pouring in kerosene or by pounding down dirt on them.

The poison mash is proving effective in the blue grass, wheat and oats and on plowed ground, but they do not seem to come down from the juicy corn in order to eat it. In such cases it is a good plan to spray the plant for several weeks with Paris-green. In some places, the worst is yet to come from the army worm.

OLD JACKSONVILLE

AN EARLY PHYSICIAN

By Ensley Moore

(Member Illinois State Historical Society)

Dr. Thomas Munroe was one of the finest Christian gentlemen who ever honored Jacksonville by his residence. He came here in December, 1835, and removed to Rushville, this state, in 1843. Two of his sons have been graduates of Illinois College, and most of the family were known here.

Thomas Munroe.
Was born in Annapolis, Maryland January 4, 1807. His grandfather William Munroe, was one of the 135 men, who, in 1774, signed a protest against certain acts of the Colonial government and when the war broke out next year, he espoused the cause of the Colonies.

Thomas Munroe was educated at St. John's College, Annapolis, taking the full classical course, finishing in 1826; he studied medicine there, attended lectures at the University of Maryland, Baltimore receiving his medical degree in 1829, and practiced for several years in Baltimore. He came to Illinois in December 1835, and practiced here until 1843, when he removed to Rushville. There he was in steady practice until 1852, when he became surgeon of the 119th Regiment of Illinois Volunteers. He served until June, 1864, when ill-health compelled his resignation. During his residence here, in 1839, Dr. Munroe was

Groomsman for Gov. Yates.
The great War leader. They were friends then, and kept up their acquaintance for many years.

Marries.
Dr. Munroe was married Oct. 5, 1841, to Miss Annis Himman born in Utica, New York, December 10, 1815. She was the only daughter of Major Benjamin Himman, of the Revolutionary War, an aide to Gen. Nathaniel Greene. Her mother was Anna Keyser Himman, of Knickerbocker lineage, which showed in her face and acts, as it did in the countenance and character of Mrs. Munroe.

At the age of nine years, her brother being then mayor of Utica, Mrs. Munroe had the honor of being introduced to Gen. Lafayette during his tour of this country. She lived, as did her mother, until about ninety years of age, and became one of the last survivors of the real Daughters of the American Revolution, being a member of the organization of that name.

Of Notable Family.
Mrs. Munroe, on the Himman side belonged to a family distinguished in Connecticut and in New York state. If not mistaken a forbear was one of the signers of the Declaration of Independence, from Connecticut.

In New York, a brother was mayor of Utica and sheriff of Oneida county, and another brother, William, was a general of militia. The latter, with his brother, Jay was an early settler of Rushville, where Dr. and Mrs. Munroe were married. Their fine old time house still stands as one of the elegant early day residences of Illinois.

Mrs. Munroe had superior advantages of education, for her day, and this, with an elegance of manner which distinguished both herself and the Doctor, placed her among the first ladies of Illinois. In religious matters she was an Episcopalian, but she and her husband attended the Methodist church in which he was one of the most prominent, highly honored by his local associates, bearing one office for thirty eight years.

These good people made Jacksonville their home until 1843, and the rest of their days were spent in Rushville. Mrs. Munroe died there February 6, 1905.

Dr. Munroe.
As already stated, Dr. Munroe served as a surgeon during the Civil War and in 1875 he was appointed United States Examining surgeon for pensions. Politically he was a Republican of determination, as one needed to be in Schuyler county during the '60's.

During his residence here Dr. Munroe was associated with Dr. G. Y. Shirley, and also with Dr. Nathaniel English, both men of note here.

Family.
Doctor and Mrs. Munroe were the parents of:
John Himman, who died in infancy here.

Thomas, who went to Muskegon, Michigan, in 1870 and became one of its foremost and most successful lumbermen. He at-

tended the Wesleyan University, at Bloomington, this state, and was a man of fine mind and the most dauntless courage. In his youth he assisted the United States authorities in running down draft evaders or resisters. He was also one of the highest up Masons of this country, having taken the 33rd degree. He was a strenuous Republican and served as a delegate to the National Convention of 1904.

Speaking of him, at the time of his death, October 17, 1906, The Muskegon Chronicle said, in part, "The history of the Thayer Lumber Company under Mr. Munroe's management constitutes one of the most remarkable records to be found in the history of the lumber industry in the United States. The company has been one of the most successful that has ever engaged in the manufacture of lumber in Michigan, and this result has been almost wholly due to the intelligent management and indomitable energy of the company's superintendent."

The Thayer Company was a Boston corporation.
Mr. Munroe was married June 19, 1872, to Miss Katherine A. Jones, of Oneida county, New York, who survives him. Mrs. Munroe was a niece of the late Hon. William H. Ray member of congress from the Schuyler, Illinois district. The home of the Munroes was described as one of the most beautiful in Muskegon, not alone in its material things, but "in its delightful hospitality and the refined social life centering within it."

James Edward, who was graduated from Illinois College in the class of 1888, standing highest in his class thru his course, a. l. of which was pursued there. He studied law in Rushville with the Hon. John C. Bagby, M. C., and was admitted to the bar. After which he went to Chicago and found employment in the office of the Hon. William C. Goudy who highly regarded Munroe's abilities and attainments. Soon he entered more active practice for himself adhering strictly to his profession—not being led off into politics or other side interests. He came to be known as one of the ablest members of his profession in Chicago, and was an attorney for the Armours. He made some investments in timber lands, and between his professional labors and that secured a fine competence.

Mr. Munroe frequently visited here, after his graduation and, was married, October 25, 1876, to Miss Katherine B. Smith, daughter of the late David A. Smith, of Jacksonville. Mrs. Munroe was one of our finest vocalists, her education and experience being partly gained in Europe. She survives her husband, being a resident of Chicago. They were the parents of a son and a daughter.

In college Mr. Munroe was a member and president of Sigma Pi society.

He passed on, June 2, 1912.

Charles G. who was a business man of Rushville, and still resides at the old home.

Himman, who married Miss Anna Irving of Rushville, where they have made their home. They are the parents of one son, Irving, a lawyer, presumably now a resident in Oklahoma.

William, who was the youngest of the family. He got his higher education in Illinois College, being graduated in the class of 1882. He was a member of Sigma Pi Society, and a president of it. Mr. Munroe went to Muskegon, Mich., soon after leaving college, and entered business there in which he was successful. Being successful in getting a young lady there to marry him and they are the parents of two daughters.

Such is in brief, a sketch of the life history of Dr. Thomas Munroe, and his wife, and mention of their descendants. Jacksonville was fortunate in securing the educated mind of the Doctor in its professional and social life ere he was "gathered to his fathers," April 23, 1891.

The Family Wash

Science, the often unappreciated servant of the human family, is doing great things for the Family Washing. It has placed the housewife in a position to shift one more irksome household burden, and in the doing, provide more time for herself and better service for her family.

By all means, particularly during the hot weather, use our "Finished Family Wash" service—No better method, and costs no more.

What is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It is a Blood Infection and Can Be Permanently Relieved

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into the blood where the poison lurks and which is not ef-

fectured by salve and ointments. It is important that you rid yourself of this terrible disease before it goes too far. S. S. S. is the blood purifier that has stood the test of time, having been in constant use for more than fifty years. It will do for you what it has done for thousands of others, drive the rheumatic poisons out of your blood, making it pure and strong, and enabling it to make you well. S. S. S. is guaranteed purely vegetable, it will do the work and not harm the most delicate stomach.

MONSTER PARASITE EXPELLED FROM CHARLESTON WOMAN'S SYSTEM WHICH MEASURED MANY FEET

The following testimonial was given at the Tonal office—

Charleston, Ill.

This is to certify that I have been troubled with a tapeworm for a year. I went to three doctors, some of them made me go without eating for 3 days, then gave me medicine, but were unable to get any part of the worm, although I would still notice I was passing little joints. I finally tried the Tonal treatment, and after taking one dose of medicine passed a tapeworm many feet in length. I cheerfully recommend the Tonal treatment and gave them permission to use my name to advertise any way they see fit.

MRS. MUMAH.

South 6th St., Charleston, Ill. The Tonal man remarked in one of his lectures that in these days of evolution don't condemn anything just because it happens to be unusual. For these are the days of the man who does, not of the man who dreams. Things move so rapidly, now-a-days the fellow that says it can't be done is interrupted by somebody doing it. The citizens of Jacksonville are amazed at Tonal, the new dis-

covery now being demonstrated daily. This wonderful new method of treating the sick has made the quick relief and astounding results that made Tonal famous in New York and the New England states.

In speaking of this wonderful success in Jacksonville and other cities, Daly said: "I am successful because my new medical discovery removes the cause of the disease and assists nature. The Tonal treatment relieves the most obstinate forms of stomach, bowel and liver trouble, rheumatism, nerve, kidney and blood diseases." At the doctor's headquarters at the Pacific hotel, he explains his remedies.

Hours—10 to 12 mornings; 2 to 4 afternoons, 7 to 8 evenings. Tonal remedies for sale at Armstrong's Drug Stores. **Pretty Baby Contest Saturday Night**
Daly announces another big free show on his big electric lighted stage tonight on the vacant lot known as Billy Sunday's lot. The pretty baby contest Saturday night. The show starts at 8 o'clock each evening.

Cars From Stock Make Same Record as Specials

It is the day-in and day-out record of stock cars in the hands of owners that has built up the public appreciation of Overland. A recent demonstration of Model 90 power, endurance and dependability was an impromptu round trip between Oakland and Los Angeles.

It was a most severe test, over mountain roads, thru a blinding storm, with mud hub deep in places. The model 90 never faltered, never failed! The performance of the car and the time made is the more remarkable because it is what more than 150,000 Model 90 owners know their cars are capable of.

Let us show you a duplicate of the cars that made these records.

KING'S DAUGHTERS ICE CREAM SOCIAL

Concord Christian Church Class
Gave Social Saturday Evening—
Other News from Concord.

Concord, June 18.—Mrs. Addie Bayless is very sick. She has a large circle of friends who are always anxious to hear from her. W. C. Brockhouse, who lives next neighbor to Bayless's is reported on the sick list.

The St. Paul's Lutheran church southwest of here held their regular missionary festival on Sunday, which was largely attended, some from a distant being present. Ministers from other points took part. The King's Daughters Class of the Christian Sunday school held a very successful ice cream social on the lawn of O. T. Hamm Saturday evening. The Ladies Aid of the local church will hold another social and supper Saturday evening, June 28th. It will be on the O. T. Hamm lawn.

A. H. Bartelme has moved his home to one side in preparation for the building of a modern residence in the future. The house moved was built by C. W. Craig in 1879. Jeff Duckett, Sr., and son were the builders. 40 years ago how time flies.

Mrs. Sam Brockhouse is suffering from a severe cold.

Mrs. Ethelyn Clark paid a visit to her cousin Mrs. Nellie Wiswell of Jacksonville, returning Sunday.

Ruth Henderson of Jacksonville was visiting Mr. and Mrs. Huber Wester Sunday.

W. F. Nergenhah had concrete walks built for a new garage some weeks ago. Last week he had S. M. Henderson to assist in putting on the roof which is "Radi Slate," and it presents a very pleasing appearance.

One day last week an item was published in regards to the death of a former Concord resident. The writer was quoted incorrectly however. It should have been Mrs. Addie Craig Graves, a daughter of the late Perry Craig, who used to own and operate the farm now owned by W. F. Deterding. Mrs. Craig is now employed at the stock yards in Kansas City.

Adjutant.

A VISITOR FROM "FRISCO."

Stanley Wright of San Francisco is visiting his mother, Mrs. William Henry Wright on East Morgan street. The young man is looking fine and is doing well. Some time since he was an invalid four years and his weight was reduced to 140 pounds but since that time he has recovered and tips the beam at nearly 100 pounds more. He is recognized by some old time friends and a good many don't know him at first. He is a prominent business man of the western metropolis and has made a host of friends there. His brother, William Henry, named for his father, is still in the service overseas but is expected home soon.

EAST STATE STREET PAVING DISCUSSED

Property Owners Met With City Council Wednesday Evening—Want Present Road Bed Fixed Before Tarvia Is Spread—North Church Residents Also Met Wednesday.

Property owners of East State street met with the members of the city council in the council chamber Wednesday evening to take up the matter of the paving of East State street. The following were present: Frank McKenna, P. Bonansinga, W. S. Ehle, Dr. W. Duncan, J. H. O'Donnell, J. N. Kennedy representing the Routh College property, F. J. Garland, Joseph Stice, Otto Spieth, E. A. Brennan, A. C. Metcalf, C. J. Peterson and George Brown.

The contract has been let for the paving of East State street for about two years but the government order stopped all city and state work during the period of the war. During that time excavations were made in East State street that makes its surface far different than it was when Mr. Bretz took the contract. Now the property owners are fearful that they cannot get a satisfactory job unless some concrete is used to bridge these excavations.

Mayor Crabtree stated the purpose of the meeting and said that it was hoped that by a meeting of citizens with the city council that some solution could be reached. The mayor stated that the property owners of North Church street had gotten together during the lay and arrived at a solution of their problem and had recommended George Wiseman for inspector and he had been appointed by the board of local improvements.

Mayor Crabtree called upon Charles Campbell, as representative of the Barrette company of St. Louis, which furnishes the tarvia for the work. Mr. Campbell said after an inspection of the street that he would not recommend that tarvia or any other pavement be built on the street unless a concrete foundation was laid.

The discussion, which was entirely informal, was participated in by J. N. Kennedy, Frank McKenna, P. J. White, F. J. Garland, Otto Spieth, Dr. W. P. Duncan, J. H. O'Donnell, Joseph Stice and Engineer Henderson.

Otto Spieth Pessimistic

Mr. Spieth was of the opinion that it would do no good to organize. They had organized at one time and had asked for an asphalt pavement and they got tarvia. Dr. Duncan said that what a majority of the property owners wanted was a good foundation. He believed that a majority of the property owners wanted an asphalt pavement but it would require a petition with 100 per cent of the property owners to change the specifications and that would be impossible to get. "We are going to demand a good job," said Dr. Duncan, "and then endeavor to see that we get it."

Ald. Graft was of the opinion that they were beginning at the wrong end. Mr. Bretz should be at the meeting so that he could be asked what he would do. If he wanted to throw up the job let him do so and then let the people have an asphalt pavement if they wanted it. He said that nothing could be done unless Mr. Bretz agreed to it.

Citizens Should Organize

Mayor Crabtree was of the opinion that the property owners should get together and organize and after they had studied the problem and arrived at some conclusion to make recommendation to the council and that body would do its best to carry it out.

N. Kennedy said, speaking for the property he represented, that he was in favor of holding Bretz to his contract and make him give the people a good job.

After some further discussion the property owners held a session. It was decided to hold another meeting in the Chamber of Commerce room Friday evening and endeavor to solve their problem.

Jacksonville lodge No. 570 A. F. and A. M. will hold a stated meeting tonight at 7:30. Visiting brethren welcome.

LUNG MOTOR AT FIRE DEPARTMENT

Chief Hunt of the fire department asked yesterday that the Journal call the attention of the public to the lung motor at the fire department. The department is ready at all times to respond to calls in case of drowning, suffocation by smoke or gas, electrocution and anything where the apparatus might be of assistance.

The lung motor is especially valuable in case of drowning and had the call been sent directly to the department Wednesday it might have saved the life of Francis Pulasky.

What Chief Hunt wishes to emphasize is the fact that the lung motor is for the use of the public. With the motor trucks it will be possible to get to the scene of a drowning in quick time.

BRAVO FOR THE CARPENTERS.

One of the big undertakings of the Fourth celebration is the preparation of the eating facilities in the large tent. It is expected to seat a thousand people and to seat all those is no small job. Charles DeSilva went before the carpenters Union No. 904 T. C. Chumley, president, and made an appeal and the result was about a hundred men will work a day's work. This is the right spirit and is to be commended.

FEDERATION OF CLUBS IN ANNUAL MEETING

Morgan County Organization Held Annual Meeting at Grace Church Wednesday—Mrs. L. M. Fetherston of Chicago Made Address in Interest of Child Welfare Campaign.

The annual meeting of the Morgan County Federation of Clubs was held at Grace M. E. church Wednesday, and was attended by representatives of many of the clubs throughout the county. At the business session at 11 o'clock various reports were made, all of which indicated a year of more than usual activity in club circles.

The officers who have served the past year were re-elected with the exception of corresponding secretary-treasurer, and Mrs. L. B. Turner was chosen to succeed Miss Clara Cobb in this office. Mrs. J. Parker Doan, who was named vice president of the district at the recent Beardstown meeting, to fill the vacancy caused by the resignation of Mrs. Ben Lorton, automatically becomes the president of the Morgan county organization.

At the close of the business session a picnic luncheon was served in the basement of the church, and this feature of the day was especially enjoyable.

The afternoon session began at 2:30 o'clock. Mrs. Ben Lorton presiding, and at this time the women present had the privilege of listening to an address by Mrs. L. M. Fetherston of Chicago, who is making a tour of the 20th district in the interest of Child Welfare.

Mrs. Fetherston has been heard in this county several times prior to yesterday and her message each time has contained much of real value. The speaker made a strong appeal for co-operation in community work and gave various instances to illustrate the excellent results which may be attained by the massing of effort along any given line.

Morgan County's Fine Beginning.

"The ever of America so far as the children are concerned," the speaker declared, "are on Morgan county, for you have had the first demonstration of the children's bureau and the clinic truck is to visit you first. You have made a fine beginning and you will be able to carry on the work which the survey indicated was needed if you will but join together in one great united effort."

"With the country absolutely shaken as it has been by the greatest war in history, with the knowledge that liberty has been secured for all nations and with our own men as the deciding factor in the securing of that liberty, a new problem confronts the American people—the fostering of the ideals for which these men have died. We must profit by the mistakes which the European nations have made. One of the greatest mistakes we have made is a lack of co-operation, not only nationally but in state, county and rural district.

We found thru our war work that only by united effort could we accomplish the big things, and as a result of the lesson of war time churches and various organizations are getting together more and more in the effort to solve the big questions confronting America today.

New Spirit of Americanism

"The next thing we need to learn is the new spirit of Americanism. We need first of all to Americanize America. We need to learn as a form of religion aldict overruled and for new trial overruled. Judgment on verdict for plaintiff for \$248.12 and costs.

Same vs. same, case. Judgment on findings in favor of defendant and against plaintiff in bar of action and for costs. Motion by plaintiff to retax costs.

WORDS OF PRAISE FOR FORMER RESIDENT

Extracts from Article in Los Angeles News Concern William Osterholt, Former Resident.

What is thought of Will Osterholt, so well known in his old home and now a resident of Los Angeles, may be gathered from extracts of some articles in a recent copy of the Los Angeles News for which the Journal is indebted to its worthy friend, J. T. Osborne.

"W. T. Osterholt, prophet in his own country and one of the famous members of Jimnistan Grotto, No. 76, is going as a delegate to the annual convention of the big order, which convenes at Pittsburgh June 17 and 18. Secretary H. W. Reynolds will be the other delegate from Los Angeles. Mr. Osterholt will represent the monarch and Mr. Reynolds the chief justice.

"Last year popular Billy Osterholt was monarch of the grotto and made a brilliant and successful record. His record is all the more notable because the war was on and times were different. All the same, scores of candidates joined, and the reign of William T. Osterholt as before remarked, will be noted for splendid achievement and unequalled success. The clever deputy sheriff stands high in Masonic circles and as a prophet of the Jimnistan Grotto he has done much to make the order highly successful and popular.

"Next Thursday Mr. Osterholt and Mr. Reynolds will leave for Pittsburgh to be gone two weeks, and they will carry with them the best wishes of hosts of friends, fraternal, and otherwise.

"Last Tuesday night, a week ago at the Ganaut Club, the members of Jimnistan Grotto No. 76 pulled off a big stunt, which was one of the biggest stunts pulled off for many a long day and ex-Monarch Osterholt, it is well known, was one of the chief guiding spirits.

"Last Thursday June 5, W. S. Osterholt, popular deputy sheriff and everybody's friend celebrated his fifty-first birthday. Several beautiful bouquets were presented to him by the young ladies in the sheriff's office, and Deputy Sheriff Hotchkiss, ex-Mayor of Monrovia, made a little speech congratulating him upon his youthful looks and the fact that he had passed the half-century mark. Mr. Osterholt received congratulations from hosts of friends, all wishing him many happy returns. One friend, who is given to writing verses, sent him the following:

O, may you live for many years
And never know a sorrow,
For you have brought us smiles
And cheers
To make a glad tomorrow.

"One friend, in congratulating Mr. Osterholt, said he was only 51 years young, as the poet Oliver Wendell Holmes, put it years ago, and he concluded: 'Billy Osterholt looks 39, works with the energy of a youth 25 and enjoys life with the zest and enthusiasm of a boy 18.' Another friend declared the deputy would remain forever young, or as long as he was an active member of Jimnistan Grotto. Mr. Osterholt will leave next Thursday for Pittsburgh, where he goes as a delegate to the annual convention of the order. He will represent the monarch of the grotto."

ganized local community council if the right methods are followed.

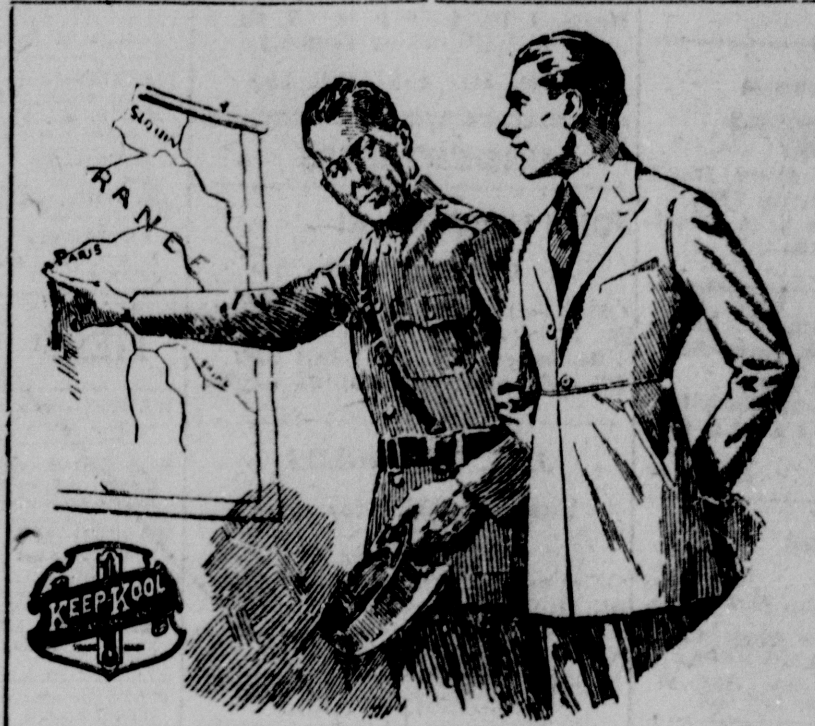

Urges Co-Operation.

Mrs. Fetherston spoke in highest praise of the leadership of Mrs. Sherman Leavitt in the Health Crusade work here, and in conclusion said: "You people of Morgan county deserve great credit for the start you have made. All you need is co-operation and the get-together spirit. The children's bureau nurses and welfare workers have been here, the clinic truck is coming soon, but unless Morgan county follows up the work the good beginning will mean nothing. You must not leave it to one group or one school district. There is not a county in the state that has the start that you have. It is up to you to make good."

At the close of Mrs. Fetherston's address Mayor E. E. Crabtree was introduced for a brief statement as to the home-coming celebration which Morgan county is planning for July 4.
